Alaska Dental Hygienists’ Association
Summer CE
Saturday August 20th & 21st, 2016
UAA AHS Building Room 106 August 20, 2016
UAA AHS Building Rooms 206/207 August 21, 2016
CE Presenter: Anna Matsuishi Pattison, R.D.H., M.S.

August 20, 2016
Registration 7:15am
Full Day Lecture – Part I: 2016 Update on Advanced Periodontal Instrumentation with New Advanced Technique Videos
8:00am-5:00pm

August 21, 2016
Registration 7:15am
Hands on course - PART II: Advanced Periodontal Instrumentation*
8:00am-5:00pm

******************************************************************
REGISTRATION FORM (please print)*****************************************************************

NAME______________________________________________
ADDRESS____________________________________________
CITY______________________________ZIP_____
EMAIL______________________________PHONE__________________________

Alaska DHA /ADHA MEMBER #______________________________________(PLEASE ATTACH COPY OF CARD)

Alaska DHA/ADHA/ADS Members (Attach copy of card/attendee must be member):
[ ] Saturday Lecture ........8CEUs........lunch included.................................................................$160.00
[ ] Sunday Hands on Course*........8CEUs........lunch included.................................................................$350.00
[ ] Saturday and Sunday Complete Course*..........16 CEUs........lunch included.................................................................$510.00

Non-Members
[ ] Saturday Lecture ........8CEUs........lunch included.................................................................$320.00
[ ] Sunday Hands on Course*........8CEUs........lunch included.................................................................$350.00
[ ] Saturday and Sunday Complete Course*..........16 CEUs........lunch included.................................................................$670.00

*Enrollees for the course on August 21, 2016 must have taken Anna Pattison's lecture in the past 3 years and be able to provide proof of attendance

Early Registration ends Saturday, July 30th, 2016
** LIMITED SEATING, BE SURE TO REGISTER EARLY **
$25 late fee after this date and will only be accepted at the door
To avoid late fee registration must be postmarked on or before July 30th, 2016

Payment accepted with PayPal or check. Make checks payable to Alaska DHA
To pay online for this CE, go to www.paypal.com and after logging in, select “Send & Request” from the tabs at the top. Choose “Pay for Goods or Services,” and enter rdhalaska@gmail.com for the recipient. Under the “note” section, please write the first and last name of the CE attendee.
Email address from which payment was sent:__________________________________________________
Name on paypal account from which payment was sent:______________________________________

**If using paypal please mail or email registration form to ak2thclnr@yahoo.com
Please do not send registration forms to the rdhalaska@gmail account.

Mail your registration to:
Alaska DHA, c/o Michele Summers, 645 “G” Street #100-913, Anchorage, AK 99501
Questions? Contact: Michele 854-4400 or ak2thclnr@yahoo.com

** Alaska DHA is not responsible for lost or misplaced CEU AK BoDE approved course vouchers. A $50 fee will be charged for the reissue of a certificate, this is only available for up to 2 years after course date, upon verification of attendance **
Full Day Lecture – Part I  (8:00 to 5:00)

2016 Update on Advanced Periodontal Instrumentation with New Advanced Technique Videos

Presented by:
Anna Matsuishi Pattison, R.D.H., M.S.

In the past five years significant developments in new high-tech devices, new hand instruments and ultrasonic tips have changed the way we teach and practice. This presentation for dentists and dental hygienists provides a detailed update on the newest instruments and the latest ultrasonic units and tips that will enhance your ability to treat patients with moderate to advanced periodontitis. Periodontal endoscopy videos will be show the effectiveness of various ultrasonic tips and hand instruments on residual, burnished calculus. New streaming online instructional videos from the Pattison Institute will demonstrate alternative fulcrums, new instruments and advanced techniques.

Topics of discussion:

• Root debridement: what are the latest concepts? Are viruses more important than bacteria?
• The influence of the dental endoscope on instrument selection and sequence
• Video comparing hand and ultrasonic instrumentation
• Use of the Gracey 15/16, Gracey 17/18, new Anna Pattison Periodontal Maintenance Gracey Curettes, Mini Fives™, Micro Mini Fives, Double Graceys, Montana Jack and Nevi sickles, diamond-coated files, Quetin furcation curettes, titanium implant instruments and other new periodontal instruments
• Comparison of magnetostrictive and piezoelectric ultrasonic units and tip design
• New subgingival air polishing technique for periodontal maintenance and implants
• Innovative extraoral, reinforced, cross arch and opposite arch fulcrums and positions
• NEW videos with detailed close ups of advanced instrumentation will demonstrate the most effective techniques for furcations, deep narrow pockets and use of magnetostrictive and piezoelectric ultrasonic tips.

Learning Objectives

• Identify the objectives of periodontal debridement
• Describe the characteristics of the dental endoscope
• Recognize the design, indications and sequence for use of universal curets, Gracey curettes, mini-bladed Gracey curets, new sickles, diamond coated instruments, furcation curets, implant instruments and other new instruments
• Describe the differences between magnetostrictive and piezoelectric ultrasonic devices and tips
• Describe the three most common clinical problems with instrumentation
• Recognize the indications for extraoral, opposite arch or other alternative fulcrums
ADVANCED PERIODONTAL INSTRUMENTATION – PART II
(Hands On Workshop on Periodontal Typodonts)

Presented by:
Anna Matsuishi Pattison, R.D.H., M.S.

This full-day laboratory course for dentists and dental hygienists is designed to enhance your periodontal instrumentation skills, enabling you to treat patients with greater confidence. This intensive hands-on experience features continuous TV demonstration and videos by Anna Pattison plus a team of experienced instructors attentive to individualized instruction throughout the day. Advanced instrumentation techniques are taught on periodontal typodonts using sickles, universal curettes, Rigid Gracey curettes, Anna Pattison Periodontal Maintenance Gracey curettes, After-Fives, Mini-Fives, Micro-Minis, Gracey Curvettes, Diamond curettes and furcation curettes. Extraoral, reinforced, cross-arch and opposite-arch fulcrums are incorporated into innovative approaches for furcations, line angles and deep, narrow pockets. Sharpening with the aid of a video, root planing exercises and root morphology review utilizing extracted teeth are also included.

Learning Objectives:

• Describe the characteristics of a proper fit for gloves
• Demonstrate close overlapping strokes on an extracted tooth with a Gracey curette
• Recognize the design, indications and sequence for use of universal curettes, Gracey curettes, mini-bladed and Micro-mini-bladed Gracey curettes, new Periodontal Maintenance Gracey curettes, sickle scalers, files, furcation curettes and diamond coated instruments
• Demonstrate the use of universal curettes, Gracey curettes, mini-bladed and Micro-mini-bladed Gracey curettes, Periodontal Maintenance Gracey curettes, sickle scalers, files, furcation curettes and diamond coated instruments on a periodontal typodont
• Demonstrate techniques for scaling maxillary and mandibular furcations
• Demonstrate intraoral, finger-on-finger, extraoral, opposite arch and reinforced fulcrums

***Participants are asked to bring safety glasses. It is advisable for attendees to not wear white clothing. Typodonts, poles, and complete instruction kits will be provided for use only during the course.
Anna Matsuishi Pattison, R.D.H., M.S.

Anna Pattison received her B.S. in Dental Hygiene from the University of Southern California School of Dentistry in 1967, and her M.S. degree in Dental Hygiene Education and Administration from Columbia University in 1968. She is a Former Associate Professor, and a Former Chair of the Department of Dental Hygiene at the Ostrow School of Dentistry, University of Southern California.

Anna began teaching in the USC Department of Dental Hygiene in 1968. She then served as the Associate Director of Dental Auxiliary Occupations for the UCLA Allied Health Professions Project from 1970 to 1971. Moving to Switzerland in 1971, Anna was a clinician and instructor in the Department of Periodontology at the University of Zurich. She then returned to USC for as an Assistant Professor in the Periodontics Department. After moving to Boston, Anna became an Assistant Professor in the Department of Periodontology at the Tufts University School of Dental Medicine, and a clinical instructor at the Forsyth School for Dental Hygienists from 1973-1975. She returned to USC in 1975, serving as Dental Hygiene Department Chair from 1984 to 1989, and as a full-time Associate Professor until 2003. Since 2003, she continues to work part-time as a Clinical Associate Professor.

Mrs. Pattison is the co-author of the textbook, Periodontal Instrumentation, with her husband, Dr. Gordon Pattison. This text has been used in dental and dental hygiene schools throughout the United States and around the world, and has been translated into six languages. She has also contributed several chapters to the last six editions of Carranza’s Clinical Periodontology, which is available in seven languages and is the most widely used periodontology textbook to date. These textbooks have established Anna Pattison as one of the world’s leading experts in the field of periodontal instrumentation.

In addition to presenting lecture courses and hand-on instrumentation courses for the past thirty-five years, Mrs. Pattison is renowned for presenting faculty in-service instrumentation courses for dental and dental hygiene instructors in the states and abroad. She has repeatedly been a featured speaker for the Annual Sessions of the American Academy of Periodontology, American Dental Hygienists Association, American Dental Association, Canadian Dental Hygienists Association, Canadian Academy of Periodontology, as well as for national associations and universities in the US, Europe, Australia and Asia. She has been a featured lecturer at more than thirty universities in the U.S.

Currently, Anna and her husband Gordon Pattison are Co-Directors of the Pattison Institute, which offers periodontal instrumentation courses throughout the United States and Canada. Anna is also the former Editor-in-Chief of Dimensions of Dental Hygiene.

In 2005, she received the Pfizer-ADHA Excellence in Dental Hygiene Award and the USC School of Dentistry Alumnus of the Year Award. In 2006 she received the California Society of Periodontists Award. In 2010 she was inducted into the USC School of Dentistry Hall of Fame.
