

Optimizing Hygiene, Regenerative and Implant Dentistry in the Everyday Clinical Practice

In Association with **Dr. Thomas Wanat III**

Tuesday, June 06, 2017

PROGRAM DESCRIPTION

This program focuses on innovative approaches to establishing optimal periodontal therapy in the hygiene department and discusses regenerative therapies in everyday clinical practice. The program provides practices with tips and tools to optimize periodontal therapy and explore the advances, capabilities and benefits of periodontal regeneration. Emphasis is placed on implementing effective treatment protocols and how biologic modifiers, particularly enamel matrix derivative, are used to regenerate lost hard and soft tissue. Establishing effective practice and patient communication to enhance case presentation and case acceptance of these therapies is a highlight of the program. Crestal bone maintenance is a key component in the long term success of a dental implant. The presentation will examine how factors such as implant design and surface technology impact maintenance of crestal bone around a dental implant. Current trends in restoration of implants will also be discussed.

LEARNING OBJECTIVES

- Implement systems to create a more periodontally aware practice
- Establish evidence-based periodontal treatment protocols
- Understand the biologic basis for bone and soft tissue response
- Understand the indications, method of use and regenerative potential of enamel matrix derivative and other biologic modifiers
- Implement effective communication to help treatment acceptance

SPEAKER

Mrs. Butler has 27 years of diverse experience in the dental industry from chairside and beyond. Tracy is a registered dental hygienist, thought leader, motivational speaker, sales leader/coach and change agent. She believes the key to every successful treatment outcome begins with an accurate assessment leading to a co-diagnosis between the patient and dental team. Tracy's clinical experience began in a busy comprehensive restorative practice in West Palm Beach, Florida. She attended the Dawson Academy and is a graduate of the Aesthetic Advantage Institute mastery level study. Mrs. Butler spent over 11 years on faculty at Palm Beach State College dental hygiene program & research clinic and considers few things more rewarding. Tracy feels blessed to have been mentored and coached by the leading authorities in occlusion, function/relation, complete care dentistry and the business of dentistry. Tracy's commitment to ultimate patient care propelled her to pursue a career in implant and regenerative dentistry with Straumann, USA. She was appointed National Director of Hygiene Education and Professional Relations in 2013 and is proud to lead the initiative for Straumann in elevating dental hygienists and the entire dental team throughout North America.
